

UNITED PUMPS

THE COMPANY

United Pumps Australia (UPA) is an Australian owned manufacturer of centrifugal pumps, primarily for the oil & gas industry. The company's major focus is on manufacture and service of centrifugal pumps in accordance with the latest American Petroleum Institute standard API610. Our pumps are of the well-known 'UNITED' brand, they have been manufactured in Australia since 1960.

The product technology is from Flowserve Corporation (previously BW/IP Int.), U.S.A. under a manufacturing license agreement.
