

UNITED PUMPS

TEST FACILITY

Floor size	1,200m ²
Cranes & height	1 x 10 tonne, 7.6m, 1 x 5 tonne, 6.4m
Performance testing	Flow rate up to 7,200m ³ /hr Head up to 1,800m NPSH permanent-closed loops with vacuum tanks
Pump types	All types of centrifugal pumps
Power/speed	Up to 2.5MW At 50hz speeds or various speeds using gearbox/VSD
Instrumentation	2-channel FFT Spectrum Analyser Vibration and noise measurement equipment
Other features	String testing Testing using mechanical dynamometer (torquemeter)
